

# Classroom reminders

1. When you arrive and before you leave, clean the desktop, chair and any areas you touch with the disinfectant spray provided. Discard the paper towel in the trash when you exit the classroom.
2. Wear a cloth or paper mask at all times in class. If your paper mask rips or becomes saturated, replace it with a new mask. Dispose the used mask in the trash on the way out of the room.
3. Keep at least 6 feet of distance between you and others.
4. Sneeze and cough into a tissue that you toss in the trash on your way out of the room.  
No tissue? Sneeze or cough into your elbow or shoulder, even if you're wearing a mask!
5. Students should wait to enter the room until all students from the previous class have exited.
6. Enter and exit the room quickly to avoid two-way traffic through doorways.
